EDUCATION

Sarvajanik College of Engineering and Technology (SCET), Surat
B.Tech in Computer Engineering - CGPA: 9.69

2023 – 2027
Surat, Gujarat

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, SQL

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Backend: Node.js (Learning)

Databases: MySQL

Developer Tools: Git, GitHub, VS Code, Postman

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

EXPERIENCE

Palm Infotech Pvt. Ltd.
Software Engineer Intern (On-site, 15 Days)

July 2026
Surat, Gujarat

- Gained practical exposure to the industry software development lifecycle, including requirement analysis, database design, backend development, frontend integration, testing, and deployment.
- Designed normalized MySQL database schemas based on business requirements and developed RESTful PHP APIs for authentication and CRUD operations, integrating them with a React.js frontend.
- Performed API testing using Postman, optimized database queries, debugged application issues, and applied performance improvements to enhance application reliability.

PROJECTS

Real-Time Indian Sign Language Translator

2026 – Present

- Developing a real-time Indian Sign Language (ISL) translation system that captures hand gestures through a webcam and converts recognized signs into English text.
- Implementing computer vision and hand landmark detection using OpenCV and MediaPipe, with a Python-based AI module for gesture recognition and classification.
- Building a React.js frontend and Express.js, Node.js and FastAPI backend with authentication, conversation history, multilingual output and text-to-speech features.

Expense Tracker Web Application  | React.js, PHP, MySQL

2026

- Developed a full-stack expense management web application with user authentication, expense tracking, category management, and CRUD functionality using React.js, PHP, and MySQL.
- Designed a normalized MySQL database and developed RESTful PHP APIs for authentication and data management, integrating them with the React.js frontend.
- Performed API testing using Postman, debugging, query optimization, and responsive UI development to improve application reliability and user experience.

Airline Reservation System  | Java, JSP, Servlets, JDBC, Oracle

2025

- Developed an enterprise web-based airline reservation system using Java EE, JSP, Servlets, JDBC, and Oracle, following the MVC architecture to separate presentation, business, and data layers.
- Implemented flight search, real-time seat availability, multi-seat booking, automatic seat allocation, simulated payment processing, e-ticket confirmation, and role-based Admin/Customer dashboards.
- Designed a relational Oracle database for users, flights, reservations, payments, and seat allocations, with session-based authentication, role-based access control, input validation, and parameterized queries for secure data handling.

EXTRACURRICULAR

Hackathons and Competitions

2024 – 2025

- * Qualified for Adobe India Hackathon Round 1 (MCQ Assessment + Coding Round).
- * Participated in WWT All India Women Only Hackathon organized by Shooting Stars Foundation.
- * Participated in Web Development Hackathon organized by Tutedude.
- * Participated in SCETHATHON 2k25 organized by SCET, Surat.

CERTIFICATIONS

- Foundations of Deep Learning: Concepts and Applications - NPTEL (**90/100**)
- Neural Networks for Computer Vision and Natural Language Processing - NPTEL (**96/100**)

HONOURS & ACHIEVEMENTS

- Awarded the **Meritorious Scholarship** by Sarvajani University for outstanding academic performance during the academic year 2023–24.
- Awarded by the **Dewang Mehta Foundation Trust** for securing the top rank with **9.79 CGPA** in the Second Year of B.Tech Computer Engineering at SCET.
